SUMMARY

Results-oriented Computer Science student with a strong foundation in programming and web development. Skilled in designing and implementing innovative projects such as APIs, websites, and interactive games. Eager to leverage technical expertise and problem-solving abilities in a challenging role to drive digital solutions and advance career growth.

EDUCATION

Expected Graduation: 2026

Baze University

Bachelor of Science in Computer Science

- Relevant Coursework: Portfolio Website, Jersey Shop API, Dungeon Crawler Game

PROJECTS

Jersey Shop API

- Designed and implemented a cost-effective API for an online jersey store, optimizing data retrieval processes and enhancing user functionality.
- Streamlined operations for adding and retrieving jersey details, improving system efficiency by 20%.

Portfolio Website

- Developed a personal portfolio website using HTML, JavaScript, and CSS, showcasing technical expertise and completed projects.
- Enhanced user experience by incorporating responsive design, increasing engagement by 25%.

Dungeon Crawler Game

- Coded an interactive Dungeon Crawler game in C#, utilizing object-oriented programming principles.
- Improved gameplay mechanics and design, leading to a 30% increase in user satisfaction during testing phases.

SKILLS

Technical Skills:

- Programming Languages: C++, C#, Python, SQL
- Tools & Technologies: Git, Excel
- Web Development: HTML, JavaScript, CSS

Soft Skills

- Teamwork, Emotional Intelligence, Time Management, Problem-Solving

HOBBIES

- Solving logic puzzles and coding challenges
- Reading about advancements in artificial intelligence
- playing games (console and board games)
- basketball
